

Glass Management

GLASS CUTTER GLAS-EX TURBO

1095126

NEW!

- Effective tool for glass management on laminated safety glass.
- Fits on any cordless screwdriver (stable 10 mm triangular holder).
- Due to its special design, the GLAS-EX TURBO transports most glass to the outside.
- Very agile! Due to the short knife you can also cut directly above the dashboard - This allows larger openings than with a normal glass saw.
- Wear-resistant design with hardened steel blade.

Glass Management

GLAS-EX TURBO - 1095126
