

Circular Rescue Saw Blades

The Original U.S.A.R. Concrete/Metal Cutting Blade

This is the diamond blade that rescue teams have been waiting for. It cuts through steel, concrete, and iron with incredible speed. Steel core design with special heat-reducing holes with no reduction of cutting depth.
Cuts wet or dry.

Don't be fooled by imitators. This is the original.

Diamond Multipurpose Rescue Blade

This blade features diamond segments with special grooves that allow the blade to cut through softer materials (wood) more efficiently while keeping strength for cutting through harder materials (concrete, metal, reinforced concrete). Vacuum bonded diamonds on side of blade help reduce binding.
